

## SLGI MFS Blended Research Low Vol International Fund (ETF Series)

### Key reasons to invest

- An actively managed international equity fund designed to mitigate downside risk while identifying opportunities to participate in market growth.
- Invests in high quality companies located in international markets, including emerging markets.
- Utilizes proprietary MFS Blended Research® approach which is a differentiated investment approach that seamlessly integrates the strengths of both fundamental research and quantitative research.
- Combining two complementary disciplines provides a fuller understanding of the investable universe and supports stronger long-term decision making.

### Management Company

- SLGI Asset Management Inc.

### Sub-advisors

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund and ETF investments. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all dividends or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds and ETFs are not guaranteed, their values change frequently and past performance may not be repeated.

Compound growth calculations are used only for the purpose of illustrating the effects of compound growth and are not intended to reflect the future value of any mutual fund or returns on investment in any ETF.

The payment of distributions is not guaranteed and may fluctuate. The payment of distributions should not be confused with a fund's performance, rate of return, or yield. Annual distributions paid as a result of capital gains realized by a fund and income and dividends earned by a fund are taxable in your hands in the year they are paid.
