Semi-Annual Report 2026

Mulvihill Canadian Bank Enhanced Yield ETF [CBNK]

Letter to Unitholders

We are pleased to present the 2026 semi-annual report containing the management report of the fund performance and the unaudited financial statements for Mulvihill Canadian Bank Enhanced Yield ETF (the “Fund”).

The Canadian bank stocks continued their strong run in the first half of 2026 that began in the second quarter of 2024. It was interrupted only briefly, following the joint U.S.-Israeli military campaign against Iran at the end of February. The six-month total return for the Canadian Banks was 31.7 percent. Strong price performance and regular distribution increases from the underlying holdings each contributed to the performance of the Fund.

The net asset value of the Fund increased 38.1 percent from \$11.86 per Unit at December 31, 2025, to \$16.38 per Unit at June 30, 2026. Monthly distributions increased 54.3% from \$0.06 per unit in December 2025 to \$0.09 per unit in January 2026. The Fund paid cash distributions of \$0.54 per Unit during the period. The Fund did not write any covered calls or cash covered puts during the period as the managers saw greater upside in the prices of the bank stocks than the premiums generated from writing options. However, puts were purchased to protect against possible downside action in the market and the banks specifically. For a detailed review of the operations of the Fund, please see the Results of Operations and the Portfolio Manager Report sections.

We thank all unitholders for their continued support and encourage unitholders to review the detailed information contained within the semi-annual report.

John P. Mulvihill
Chairman & CEO
Mulvihill Capital Management Inc.

The Fund

The Fund is a mutual fund investment trust that seeks to provide unitholders with long-term capital appreciation through exposure to a portfolio consisting principally of common shares of Bank of Montreal, The Bank of Nova Scotia, Canadian Imperial Bank of Commerce, National Bank of Canada, Royal Bank of Canada and The Toronto-Dominion Bank (collectively, the Banks) and pay monthly cash distributions.

To accomplish its objectives, the Fund invests substantially all of its assets in common shares of the Banks. Modest leverage of up to 25 percent enhances the dividend yields of the underlying stocks and provides additional return potential. The Fund also utilizes option strategies to enhance the portfolio income. In addition, the Fund may purchase public investment funds including exchange-traded funds and other Mulvihill Funds that provide exposure to such common shares.

The Fund employs an active covered call writing strategy to enhance the income generated by the portfolio and to reduce volatility. In addition, the Fund may write cash covered put options in respect of securities in which it is permitted to invest.

The Fund may, from time to time, use leverage in certain circumstances to enhance dividend income or to pursue attractive investment opportunities, as determined by the Manager, at its sole discretion. The Fund does not expect to employ leverage in excess of 25 percent of its net asset value.

Management Report of Fund Performance

This semi-annual management report of fund performance contains the financial highlights for the six months ended June 30, 2026 of Mulvihill Canadian Bank Enhanced Yield ETF (the “Fund”). The unaudited semi-annual condensed financial statements of the Fund for the six months ended June 30, 2026 are attached.

Copies of the Fund’s proxy voting policies and procedures, proxy voting disclosure record and quarterly portfolio disclosure may be obtained by calling 1-800-725-7172 toll free, by writing to the Fund at Investor Relations, 25 King St. West, Suite 2110, P.O. Box 48, Toronto, Ontario, M5L 1A1, by email at info@mulvihill.com or by visiting our website at www.mulvihill.com. You can also request semi-annual or annual reports at no cost by using one of the above methods.

Investment Objectives and Strategies

The Fund seeks to provide the unitholders with long-term capital appreciation through exposure to a portfolio consisting principally of common shares of Bank of Montreal, The Bank of Nova Scotia, Canadian Imperial Bank of Commerce, National Bank of Canada, Royal Bank of Canada and The Toronto-Dominion Bank (collectively, the “Banks”) and monthly cash distributions.

To accomplish its objectives, the Fund invests substantially all of its assets in common shares of the Banks. Modest leverage of up to 25 percent enhances the dividend yields of the underlying stocks and provides additional return potential. The Fund also utilizes option strategies to enhance the portfolio income. In addition, the Fund may purchase public investment funds including exchange-traded funds and other Mulvihill Funds that provide exposure to such common shares.

The Fund employs an active covered call writing strategy to enhance the income generated by the portfolio and to reduce volatility. In addition, the Fund may write cash covered put options in respect of securities in which it is permitted to invest.

Leverage

The Fund is an “alternative mutual fund”, as defined in National Instrument 81-102 – Investment Funds (“NI 81-102”), and is therefore permitted to lever its assets per the restrictions outlined in NI 81-102. The Fund measures leverage in terms of the total underlying notional value of the securities as a ratio of the total assets held. Although NI 81-102 allows the use of leverage of up to three times net asset value (“NAV”), the maximum aggregate exposure of the Fund to cash borrowing, short selling and specified derivatives will not exceed approximately one and one quarter times NAV. In order to ensure that a unitholder’s risk is limited to the capital invested, the Fund’s leverage is rebalanced in certain circumstances and when the leverage breaches certain bands.

Risk

Risks associated with an investment in the securities of the Fund are discussed in the Fund’s Prospectus, which is available on the Fund’s website at www.mulvihill.com or on SEDAR+ at www.sedarplus.ca. There were no changes to the Fund over the period that materially affected the risks associated with an investment in the securities of the Fund.

Related Party Transactions

Mulvihill Capital Management Inc. (“Mulvihill”), acts as the trustee, manager and portfolio manager of the Fund (the “Manager”) pursuant to the Declaration of Trust dated February 14, 2022. The Manager has taken the initiative and may be considered to be a promoter of the Fund. Pursuant to the Declaration of Trust, the Manager is required to provide, or cause to be provided, all necessary or advisable administrative services and facilities including valuation, fund accounting and Unitholder records.

Mulvihill is paid the fees described under the Management Fees section of this report.

Independent Review Committee

National Instrument 81-107 – Independent Review Committee for Investment Funds (“NI 81-107”) requires all publicly offered investment funds to establish an Independent Review Committee (“IRC”) to whom the Manager must refer conflict of interest matters for review or approval. NI 81-107 also imposes obligations upon the Manager to establish written policies and procedures for dealing with conflict of interest matters, maintaining records in respect of these matters and providing assistance to the IRC in carrying out its functions. The Chief Compliance Officer, designated by the Manager, is in charge of facilitating the fulfillment of these obligations.

The IRC will prepare, for each financial year, a report to securityholders that describes the IRC and its activities during such financial year and includes, if known, a description of each instance when the Manager acted in a conflict of interest matter for which the IRC did not give a positive recommendation or for which a condition, imposed by the IRC, was not met in its recommendation or approval. During the period, no recommendations or approvals were required to be sought from the IRC concerning related party transactions. Members of the IRC are Robert G. Bertram, Dr. Robert Bell and Barbara G. Stymiest.

(1) All per Unit figures are derived from the Fund's unaudited condensed financial statements for the six months ended June 30, 2026 and audited financial statements for the periods ended December 31. Net assets per Unit is the difference between the aggregate value of the assets and the aggregate value of the liabilities divided by the number of Units then outstanding.

(2) Total increase (decrease) from operations consists of interest and dividend revenue, realized and unrealized gain (loss), less expenses, and is calculated based on the weighted average number of Units outstanding during the period. The schedule is not intended to total to the ending net assets as calculations are based on the weighted average number of Units outstanding during the period.

(3) Distributions to Unitholders are based on the number of shares outstanding on the record date for each distribution.

(4) For the period from inception on February 14, 2022 to December 31, 2022.

(1) The management expense ratio ("MER") is the sum of all fees and expenses for the stated period, including harmonized sales tax but excluding transaction fees, divided by the average net asset value. The management expense ratio excluding the cost of financing also excludes the interest expense related to borrowings. Generally, the MER increases when the Fund becomes smaller in size due to redemptions.

Management Report of Fund Performance

- (2) Portfolio turnover rate is calculated based on the lesser of purchases or sales of investments, excluding short-term investments, divided by the average value of the portfolio securities. The Fund employs an option overlay strategy which can result in higher portfolio turnover by virtue of option exercises, when compared to a conventional equity mutual fund.
- (3) Trading expense ratio represents total commissions expressed as percentage of daily average net asset value during the period.
- (4) Annualized.
- (5) Net Asset Value per Unit is the difference between the aggregate value of the assets including the valuation of securities at closing prices and the aggregate value of the liabilities divided by the number of Units then outstanding.
- (6) The last date with an executed trade was June 30, 2026.
- (7) For the period from inception on February 14, 2022 to December 31, 2022.

Management Fees

Mulvihill, as the Investment Manager and Manager of the Fund, is entitled to a management fee under the Trust Agreement calculated and accrued daily and paid monthly as $\frac{1}{12}$ of 0.65 percent of the net asset value of the Fund at each month end. Services received under the Trust Agreement include the making of all investment decisions and writing of covered call options in accordance with the investment objectives, strategy and criteria of the Fund, and providing for or arranging for required administrative services to the Fund. Mulvihill also makes all decisions as to the purchase and sale of securities in the Fund’s portfolio and as to the execution of all portfolio and other transactions.

The Manager may, from time to time in its discretion, waive all or a portion of the management fee charged at any given time.

Past Performance

The following chart sets out the Fund’s past performance. It is important to note that the:

- (1) information shown assumes that all distributions made by the Fund during the period were reinvested in Units of the Fund;
- (2) information does not take into account sales, redemptions, distributions or other optional charges that would have reduced returns; and
- (3) past performance of the Fund does not necessarily indicate how it will perform in the future.

The following bar chart illustrates the Fund’s total return for the period from commencement of operations on February 25, 2022 to June 30, 2026. The chart also shows, in percentage terms, how much an investment made at the beginning of each period would have increased or decreased by the end of the period.

■ CBNK Annual Total Return

Portfolio Manager Report

The first half of 2026 has been marked by turbulence as equity markets reacted negatively at the end of February to the joint U.S.-Israeli military campaign against Iran. The resulting de facto closure of the Strait of Hormuz sent crude oil prices to multi-year highs, reigniting inflation fears which drove long-term interest rates higher. These concerns quickly faded as markets turned sharply upwards, following the April 8th U.S.-Iran ceasefire, unwinding much of the earlier energy risk premium. The Canadian bank stocks continued their strong run in the first half of 2026 that began in the second quarter of 2024. The six-month total return for the Canadian banks was 31.7 percent. The first half total return for the Fund was 43.8 percent, which benefitted from the leverage employed by the Fund. Strong price performance and regular distribution increases from the underlying holdings each contributed to the performance of the Fund.

The net asset value of the Fund increased 38.1 percent from \$11.86 per Unit at December 31, 2025, to \$16.38 per Unit at June 30, 2026. Monthly distributions increased 54.3% from \$0.06 per unit in December 2025 to \$0.09 per unit in January 2026. The Fund paid cash distributions of \$0.54 per Unit during the period. The Fund did not write any covered calls or cash covered puts during the period as the managers saw greater upside in the prices of the bank stocks than the premiums generated from writing options. However, puts were purchased to protect against possible downside action in the market and the banks specifically. Just over 23 percent of the notional value of the Fund was hedged until the latter part of April in this manner. The same notional value was again hedged briefly at the end of May to protect against possible adverse earning releases from the Canadian Banks at the time.

Forward-Looking Statements

This report may contain forward-looking statements about the Fund. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also forward-looking. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to any divergence between what is anticipated and what actually occurs, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technology change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

The above-mentioned list of important factors is not exhaustive. You should consider these and other factors carefully before making any investment decisions and you should avoid placing undue reliance on forward-looking statements. While the Fund currently anticipates that subsequent events and developments may cause the Fund’s views to change, the Fund does not undertake to update any forward-looking statements.

Notes to the Condensed Financial Statements

June 30, 2026 (Unaudited)

1. Basis of Presentation

These semi-annual condensed financial statements have been prepared in compliance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting as issued by the International Accounting Standards Board (“IASB”).

These semi-annual condensed financial statements follow the same accounting policies and method of application as, and should be read in conjunction with, the most recent audited financial statements for the year ended December 31, 2025.

These condensed financial statements were approved by the Board of Directors of the Manager on August 17, 2026.

2. Risks Associated with Financial Instruments

The various types of risks associated with its investment strategies, financial instruments and markets in which the Fund invests remain unchanged from the prior year and are described in note 6 of the audited financial statements for the year ended December 31, 2025.

Credit Risk

As at June 30, 2026 and December 31, 2025, the counterparties to the Fund’s derivative financial instruments had a credit rating of A-1 or higher from Standard & Poor’s Ratings Services.

Market Risk

(a) Price Risk

Approximately 124 percent (December 31, 2025 – 124 percent) of the Fund's net assets attributable to holders of Units held at June 30, 2026 were publicly traded equities. If equity prices on the exchange increased or decreased by 5 percent as at June 30, 2026, the net assets attributable to holders of Units would have increased or decreased by \$11.9 million (December 31, 2025 – \$8.1 million) respectively or 6.2 percent (December 31, 2025 – 6.2 percent) of the net assets attributable to holders of Units, all other factors remaining constant. In practice, actual trading results may differ and the difference could be material.

Concentration Risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographical location, product type, industry sector or counterparty type. The following is a summary of the Fund's concentration risk:

	June 30, 2026	Dec. 31, 2025
