
Mulvihill Premium Yield Fund

Semi-Annual Report 2026

Mulvihill Premium Yield Fund

Letter to Unitholders

We are pleased to present the 2026 semi-annual report containing the management report of the fund performance and the unaudited financial statements for Mulvihill Premium Yield Fund (the “Fund”).

The first half of 2026 has been turbulent as equity markets reacted negatively at the end of February, following the joint U.S.-Israeli military campaign against Iran. The resulting de facto closure of the Strait of Hormuz sent crude oil prices to multi-year highs, reigniting inflation fears which drove long-term interest rates higher. These concerns quickly faded as markets turned sharply upwards, following the April 8th U.S.-Iran ceasefire, unwinding much of the earlier energy risk premium. Regional and sector performance varied considerably over the period as Canada was a clear outperformer in the first quarter, benefitting from its concentration in commodities. However, U.S. equities, and specifically Artificial Intelligence (“AI”) related stocks, outperformed in the second quarter with semi-conductor stocks posting their best quarterly return on record.

The net asset value per Class I unit increased 4.6 percent from \$10.93 per Unit at December 31, 2025 to \$11.43 per Unit at June 30, 2026. The net asset value per Class F unit increased 4.6 percent from \$10.94 per Unit at December 31, 2025 to \$11.44 per Unit at June 30, 2026. The net asset value per Class A unit increased 3.8 percent from \$10.08 per Unit at December 31, 2025 to \$10.46 per Unit at June 30, 2026. The net asset value per ETF unit increased 4.2 percent from \$10.21 per Unit at December 31, 2025 to \$10.64 per Unit at June 30, 2026. The Fund paid cash distributions of \$0.41 per Class I, Class F, Class A and ETF Unit during the period. For a detailed review of the operations of the Fund, please see the Results of Operations and the Portfolio Manager Report sections.

We thank all unitholders for their continued support and encourage unitholders to review the detailed information contained within the semi-annual report.

John P. Mulvihill
Chairman & CEO
Mulvihill Capital Management Inc.

The Fund

The Fund is a mutual fund investment trust that seeks to provide unitholders with (i) high quarterly income on a tax efficient basis; (ii) long-term capital appreciation through investment in a portfolio of high quality equity securities; and (iii) lower overall portfolio volatility. The Fund will write options to seek to earn tax efficient option premiums, reduce overall portfolio volatility and enhance the portfolio's total return.

To achieve its investment objectives, the Fund (i) invests in an actively managed portfolio comprised of securities from the S&P/TSX Composite Index and S&P 500 Index; and (ii) uses option writing strategies from time to time in response to market conditions to generate an enhanced tax efficient yield. The Fund is also permitted to invest in public investment funds including exchange-traded funds and other Mulvihill Funds (provided that no more than 15 percent of the net asset value of the Fund may be invested in securities of other Funds managed by Mulvihill and provided there is no duplication of fees) that provide exposure to such securities.

The Fund uses a quantitative approach to primarily select securities that generate strong free cash flow and have a high shareholder yield, utilizing measures such as dividends and share buybacks. The Fund will, from time to time employ various investment strategies, including the use of derivative instruments to generate income, reduce portfolio volatility and protect capital. The Fund seeks to achieve a 5 percent yield, with additional capital growth potential beyond such yield target.

Management Report of Fund Performance

Management Report of Fund Performance

This semi-annual management report of fund performance contains the financial highlights for the six months ended June 30, 2026 of Mulvihill Premium Yield Fund (the “Fund”). The unaudited semi-annual condensed financial statements of the Fund are attached.

Copies of the Fund’s proxy voting policies and procedures, proxy voting disclosure record and quarterly portfolio disclosure may be obtained by calling 1-800-725-7172 toll free, by writing to the Fund at Investor Relations, 25 King Street West, Suite 2110, P.O. Box 48, Toronto, Ontario, M5L 1A1, by email at info@mulvihill.com or by visiting our website at www.mulvihill.com. You can also request semi-annual or annual reports at no cost by using one of the above methods.

Results of Operations

Distributions

The Fund paid distributions of \$0.41 per Class I Unit, \$0.41 per Class F Unit, \$0.41 per Class A Unit and \$0.41 per ETF Unit during the period, compared to distributions of \$0.38 per Class I Unit, \$0.38 per Class F Unit, \$0.38 per Class A Unit and \$0.38 per ETF Unit during the same period in the prior year.

Since inception of the Fund in December 2019, the Fund has paid total cash distributions of \$3.98 per Class I Unit, \$3.98 per Class F Unit, \$3.98 per Class A Unit and \$2.50 per ETF Unit.

Revenue and Expenses

For the six months ended June 30, 2026, the Fund’s total revenue was \$0.13 per Class I Unit, \$0.13 per Class F Unit, \$0.12 per Class A Unit and \$0.12 per ETF Unit and total expenses were \$0.13 per Class I Unit, \$0.13 per Class F Unit, \$0.16 per Class A Unit and \$0.13 per ETF Unit. For the six months ended June 30, 2025, the Fund’s total revenue was \$0.08 per Class I Unit, \$0.08 per Class F Unit, \$0.08 per Class A Unit and \$0.09 per ETF Unit and total expenses were \$0.11 per Class I Unit, \$0.12 per Class F Unit, \$0.14 per Class A Unit and \$0.09 per ETF Unit. The Fund had net realized and unrealized gains of \$0.90 per Class I Unit, \$0.91 per Class F Unit, \$0.82 per Class A Unit and \$0.84 per ETF Unit compared to net realized and unrealized gains of \$0.05 per Class I Unit and \$0.08 per Class F Unit, and net realized and unrealized losses of \$0.23 per Class A Unit and \$0.27 per ETF Unit.

Net Asset Value

The net asset value per Class I Unit increased 4.6 percent from \$10.93 at December 31, 2025 to \$11.43 at June 30, 2026. The net asset value per Class F Unit increased 4.6 percent from \$10.94 at December 31, 2025 to \$11.44 at June 30, 2026. The net asset value per Class A Unit increased 3.8 percent from \$10.08 at December 31, 2025 to \$10.46 at June 30, 2026. The net asset value per ETF Unit increased 4.2 percent from \$10.21 at December 31, 2025 to \$10.64 at June 30, 2026.

The total net asset value of the Fund increased \$4.4 million from \$47.8 million at December 31, 2025 to \$52.2 million at June 30, 2026, reflecting an increase in net assets attributable to holders of Class I, Class F, Class A and ETF Units of \$4.0 million, proceeds from issuance of Class F, Class A and ETF Units of \$3.5 million, Class I, Class F and Class A Unit reinvestments of \$0.5 million, Class F and Class A Unit redemptions of \$1.7 million and Class I, Class F, Class A and ETF Unit distributions of \$1.9 million.

Recent Developments

There were no recent developments pertaining to the Fund during the semi-annual period ended June 30, 2026.

Related Party Transactions

Mulvihill Capital Management Inc. (“Mulvihill”), as the Investment Manager and Manager of the Fund, manages the Fund’s investment portfolio in a manner consistent with the investment objectives, strategy and criteria of the Fund and is responsible for providing or arranging for required administrative services to the Fund pursuant to a Trust Agreement made between the Fund and Mulvihill dated September 18, 2019.

Mulvihill is paid the fees described under the Management Fees section of this report.

Independent Review Committee

National Instrument 81-107 – Independent Review Committee for Investment Funds (“NI 81-107”) requires all publicly offered investment funds to establish an IRC to whom the Manager must refer conflict of interest matters for review or approval. NI 81-107 also imposes obligations upon the Manager to establish written policies and procedures for dealing with conflict of interest matters, maintaining records in respect of these matters and providing assistance to the IRC in carrying out its functions. The Chief Compliance Officer, designated by the Manager, is in charge of facilitating the fulfillment of these obligations.

The IRC will prepare, for each financial year, a report to securityholders that describes the IRC and its activities during such financial year and includes, if known, a description of each instance when the Manager acted in a conflict of interest matter for which the IRC did not give a positive recommendation or for which a condition, imposed by the IRC, was not met in its recommendation or approval. During the period, no recommendations or approvals were required to be sought from the IRC concerning related party transactions. Members of the IRC are Robert G. Bertram, Dr. Robert Bell and Barbara G. Stymiest.

- (1) The management expense ratio ("MER") is the sum of all fees and expenses for the stated period, including harmonized sales tax and withholding taxes but excluding transaction fees, divided by the average net asset value. Generally, the MER increases when the Fund becomes smaller in size due to redemptions. The MER for the six months ended June 30, 2026 and the years ended December 31, 2025, 2024, 2023, 2022, and 2021 for Class I Units, excluding withholding taxes, are 1.84%, 1.77%, 1.94%, 2.01%, 2.07% and 2.01%, respectively. The MER for the six months ended June 30, 2026 and the years ended December 31, 2025, 2024, 2023, 2022 and 2021 for Class F Units, excluding withholding taxes, are 1.79%, 1.72%, 1.88%, 1.97%, 2.07% and 1.92%, respectively. The MER for the six months ended June 30, 2026 and the years ended December 31, 2025, 2024, 2023, 2022 and 2021 for Class A Units, excluding withholding taxes, are 2.77%, 2.67%, 2.88%, 2.94%, 2.92% and 2.81%, respectively. The MER for the six months ended June 30, 2026 and the years ended December 31, 2025, 2024, 2023 and 2022 for the ETF Units, excluding withholding taxes, are 1.93%, 1.69%, 1.45%, 2.75% and 2.43%, respectively. The Manager may waive or absorb operating expenses at its discretion or stop waiving or absorbing such expenses at any time without notice. A portion of the management fees have been waived until assets under management reach a discretionary threshold. The MER for the six months ended June 30, 2026 and the years ended December 31, 2025, 2024, 2023, 2022 and 2021 for the Class I Units, including waived management fees, are 2.17%, 2.13%, 2.32%, 2.30%, 2.46% and 2.79%, respectively. The MER for the six months ended June 30, 2026 and the years ended December 31, 2025, 2024, 2023, 2022 and 2021 for the Class F Units, including waived management fees, are 2.11%, 2.08%, 2.26%, 2.36%, 2.47% and 2.64%, respectively. The MER for the six months ended June 30, 2026 and the years ended December 31, 2025, 2024, 2023, 2022 and 2021 for the Class A Units, including waived management fees, are 3.03%, 3.26%, 3.33%, 3.31% and 3.24%, respectively. The MER for the six months ended June 30, 2026 and the years ended December 31, 2025, 2024, 2023, 2022 and 2021 for the ETF Units, including waived management fees, are 2.25%, 2.00%, 1.92%, 3.13% and 2.86%, respectively.
- (2) Portfolio turnover rate is calculated based on the lesser of purchases or sales of investments, excluding short-term investments, divided by the average value of the portfolio securities. The Fund employs an option overlay strategy which can result in higher portfolio turnover by virtue of option exercises, when compared to a conventional equity mutual fund.
- (3) Trading expense ratio represents total commissions expressed as a percentage of the daily average net asset value during the period.
- (4) Annualized.
- (5) Net Asset Value per Unit is the difference between the aggregate value of the assets including the valuation of securities at closing prices and the aggregate value of the liabilities divided by the number of Units then outstanding.
- (6) For the period from inception on October 31, 2022 to December 31, 2022.

Mulvihill Premium Yield Fund

Management Report of Fund Performance

Management Fees

Mulvihill, as the Investment Manager and Manager of the Fund, is entitled to fees under the Trust Agreement calculated and accrued daily and paid monthly. For Class I Units, the management fees are negotiable but will not exceed the management fee payable on the Class A Units. The maximum annual rate of the management fee for Class F Units and ETF Units is 1.00 percent and for Class A Units is 2.00 percent. Services received under the Trust Agreement include the making of all investment decisions and writing of covered call options in accordance with the investment objectives, strategy and criteria of the Fund providing or arranging for required administrative services to the Fund. Mulvihill also makes all decisions as to the purchase and sale of securities in the Fund's portfolio and as to the execution of all portfolio and other transactions.

To achieve effective and competitive management fees, Mulvihill may reduce the management fee borne by certain unitholders who have signed an agreement with Mulvihill. Mulvihill will pay out the amount of the reduction in the form of a management fee rebate directly to the eligible unitholder. Management fee rebates are reinvested in Units unless otherwise requested. The decision to pay management fee rebates will be in Mulvihill's discretion and will depend on a number of factors, including the size of the investment and a negotiated fee agreement between the unitholder and Mulvihill. Mulvihill reserves the right to discontinue or change management fee rebates at any time.

Mulvihill is entitled to receive a performance fee from the Fund in respect of any calendar quarter equal to 10 percent of the amount by which the Adjusted Net Asset Value ("NAV") per Unit at the end of such calendar quarter exceeds the performance of the reference index (the "Performance Fee Index") since the end of the period for which the last performance fee was paid, plus applicable taxes. Notwithstanding the foregoing, no performance fee will be payable with respect to a calendar quarter unless the Adjusted NAV per Unit exceeds both (i) the highest calendar quarter end Adjusted NAV per Unit immediately following the last time a performance fee was paid and (ii) an amount equal to the original issue price (being \$10.00) of the Units. In addition, the amount of the performance fee in respect of any calendar quarter will be limited such that the Adjusted NAV per Unit after giving effect to the payment of the performance fee may not be less than either (i) or (ii) above. "Adjusted NAV per Unit" means the NAV per Unit at the end of a calendar quarter without including any accrual for the performance fee plus the aggregate amount of all distributions paid or payable since the last time a performance fee was paid.

The Performance Fee Index for each class is as follows:

Class I Units: blended total return of the CBOE S&P 500 BuyWrite Index ("BXM") (in Canadian dollars) and the S&P/TSX 60 Covered Call 2% OTM Monthly Index ("TSXCCM") (in Canadian dollars) (weighted 50 percent as to each index).

Class UI Units: blended total return of the BXM (in U.S. dollars) and the TSXCCM (in U.S. dollars) (weighted 50 percent as to each index).

Class F Units, Class A units and ETF units: blended total return of the BXM (in Canadian dollars) and the TSXCCM (in Canadian dollars) (weighted 50 percent as to each index).

Class UA Units and Class UF units: blended total return of the BXM (in U.S. dollars) and the TSXCCM (in U.S. dollars) (weighted 50 percent as to each index).

The BXM Index is a benchmark index designed to track the performance of the hypothetical buy-write strategy on the S&P 500 Index. The TSXCCM Index is a passive total return index based on selling near-term 2% out-of-the-money calls against a long position in the iShares S&P TSX 60 Index ETF ("XIU"). It is designed to reflect the return on a portfolio that consists of a long position in XIU and a short position in the XIU close-to-the-money calls options.

The TSXCCM Index was launched on April 20, 2021.

Management Report of Fund Performance

For any redemption of Units of any class of the Fund during a calendar quarter, the prorated performance fee for that class of Units of the Fund at the time of redemption of such Units will be paid to Mulvihill at the end of the month in which the redemption occurs.

Year-By-Year Returns

The following chart sets out the Fund’s year-by-year past performance. It is important to note that the:

- (1) information shown assumes that all distributions made by the Fund during these periods were reinvested in Class I, Class F, Class A or ETF Units of the Fund;
- (2) information does not take into account sales, redemptions, distributions or other optional charges that would have reduced returns; and
- (3) past performance of the Fund does not necessarily indicate how it will perform in the future.

The following bar chart illustrates how the Fund’s total return varied from year to year for each of the past six years and for the six months ended June 30, 2026. The chart also shows, in percentage terms, how much an investment made on January 1 each year, or the date of inception on December 1, 2019 for the Class I and F Units, December 12, 2019 for the Class A Units and October 31, 2022 for the ETF Units, would have increased or decreased by the end of the fiscal year or June 30, 2026 for the six months ended.

Annual Total Return

⁽¹⁾ For the periods from December 1, 2019 (Class I and Class F) and December 12, 2019 (Class A), the inception of each Class of the Fund, to December 31, 2019.
⁽²⁾ The ETF return is for the period October 31, 2022, the inception of the class, to December 31, 2022.
⁽³⁾ For the six months ended June 30, 2026.

Management Report of Fund Performance

Portfolio Manager Report

The first half of 2026 has been turbulent as equity markets reacted negatively at the end of February, following the joint U.S.-Israeli military campaign against Iran. The resulting de facto closure of the Strait of Hormuz sent crude oil prices to multi-year highs, reigniting inflation fears which drove long-term interest rates higher. These concerns quickly faded as markets turned sharply upwards, following the April 8th U.S.-Iran ceasefire, unwinding much of the earlier energy risk premium. Regional and sector performance varied considerably over the period as Canada was a clear outperformer in the first quarter, benefitting from its concentration in commodities. However, U.S. equities, and specifically Artificial Intelligence (“AI”) related stocks, outperformed in the second quarter with semi-conductor stocks posting their best quarterly return on record.

For the six months ended June 30, 2026, the per Unit NAV was \$11.43 for Class I, \$11.44 for Class F, \$10.46 for Class A, and \$10.64 for ETF Units compared to per Unit NAV at December 31, 2025 of \$10.93 for Class I, \$10.94 for Class F, \$10.08 for Class A and \$10.21 for ETF Units. Unitholders received cash distributions of \$0.41 per Unit for each class of Unit during the period. The monthly distribution increased 9.4 percent from \$0.064 per Unit to \$0.07 per Unit during the period.

The total return of the Fund, including reinvestment of distributions, for the six months ended June 30, 2026 was 8.4 percent for Class I, 8.4 percent for Class F, 7.9 percent for Class A, and 8.3 percent for ETF Units. The best performing stock within the portfolio was Bank of Montreal, up 43.1 percent while held in the portfolio. At the other end of the spectrum Salesforce Inc was the laggard, down 28.2 percent while held in the Fund.

The CBOE Volatility Index (“VIX Index”) started the year at 20.5 and closed at 23.4 on June 30, 2026, averaging 26.6 in the first half of 2026. For the six-month period ended June 30, 2026, none of the Fund’s portfolio was subject to covered calls, 17.3 percent was subject to written cash covered puts, 5.5 percent was subject to purchased calls and 4.4 percent was subject to purchased puts. The average cash position for the first half of 2026 was 29 percent, primarily used as collateral for the written put options.

The Fund’s U.S. dollar exposure was actively hedged back into Canadian dollars throughout the period ended June 30, 2026, with approximately 100 percent hedged.

Summary of Investment Portfolio

The composition of the portfolio may change due to ongoing portfolio transactions of the Fund. A quarterly portfolio summary, which includes the percentage of net asset value for each holding, and a monthly portfolio list are available on our website at www.mulvihill.com.

Management Report of Fund Performance

Forward-Looking Statements

This report may contain forward-looking statements about the Fund. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also forward-looking. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to any divergence between what is anticipated and what actually occurs, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technology change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

The above-mentioned list of important factors is not exhaustive. You should consider these and other factors carefully before making any investment decisions and you should avoid placing undue reliance on forward-looking statements. While the Fund currently anticipates that subsequent events and developments may cause the Fund's views to change, the Fund does not undertake to update any forward-looking statements.

Management's Responsibility for Financial Reporting

The accompanying condensed financial statements of Mulvihill Premium Yield Fund (the "Fund") and all the information in this semi-annual report are the responsibility of the management of Mulvihill Capital Management Inc. (the "Manager") and have been approved by the Directors of the Manager (the "Directors").

The condensed financial statements have been prepared by management in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB") and include certain amounts that are based on estimates and judgments. Management has ensured that the other financial information presented in this semi-annual report is consistent with the condensed financial statements. The material accounting policies which management believes are appropriate for the Fund are described in Note 3 of the annual financial statements for the year ended December 31, 2025.

The Manager is also responsible for maintaining a system of internal controls designed to provide reasonable assurance that assets are safeguarded and that accounting systems provide timely, accurate and reliable financial information.

The Directors meet periodically with management and the independent auditor to discuss internal controls, the financial reporting process, various auditing and financial reporting matters, and to review the annual report, the financial statements and the independent auditor's report. Deloitte LLP, the Fund's independent auditor, has full and unrestricted access to the Directors.

Mulvihill Premium Yield Fund

Notes to the Condensed Financial Statements

June 30, 2026 (Unaudited)

1. Basis of Presentation

The semi-annual condensed financial statements for Mulvihill Premium Yield Fund (the “Fund”) have been prepared in compliance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting as issued by the International Accounting Standards Board (“IASB”).

These semi-annual condensed financial statements follow the same accounting policies and method of application as, and should be read in conjunction with, the most recent audited financial statements for the year ended December 31, 2025.

These condensed financial statements were approved by the Directors of the Manager on August 17, 2026.

2. Risks Associated with Financial Instruments

The various types of risks associated with its investment strategies, financial instruments and markets in which the Fund invests remain unchanged from the prior year and are described in Note 6 of the audited financial statements for the year ended December 31, 2025.

Credit Risk

As at June 30, 2026 and December 31, 2025, the counterparties to the Fund’s derivative financial instruments had a credit rating of A-1 or higher from Standard & Poor’s Ratings Services.

Liquidity Risk

The amounts in the table are the contractual undiscounted cash flows:

	As at June 30, 2026 Financial Liabilities		
	On Demand	< 3 months	Total
Distribution payable	\$ —	\$ 253,403	\$ 253,403
Accrued liabilities	—	140,617	140,617

	\$ 47,819,983	\$ 745,427	\$ 48,565,410

Market Risk

(a) Currency Risk

The table below indicates the foreign currencies to which the Fund had significant exposure as at June 30, 2026 and December 31, 2025 in Canadian dollar terms, and the notional amounts of forward exchange contracts. The table also illustrates the potential impact on the net assets attributable to holders of Class I, Class F, Class A and ETF Units if the Canadian dollar had strengthened or weakened by 5 percent in relation to the United States dollar, with all other variables held constant.

	As at June 30, 2026			Impact on Net Assets Attributable to		
	U.S. Currency Exposure			Holders of Class I, Class F, Class A, and ETF units		
	Monetary	Non-Monetary	Total	Monetary	Non-Monetary	Total
	\$ (17,823,505)	\$ 17,483,434	\$ (340,071)	\$ (891,175)	\$ 874,172	\$ (17,004)
% of Net Assets Attributable to Holders of Class I, Class F, Class A and ETF Units	(34)%	33%	(1)%	(2)%	2%	0%

	As at December 31, 2025			Impact on Net Assets Attributable to		
	U.S. Currency Exposure			Holders of Class I, Class F, Class A, and ETF units		
	Monetary	Non-Monetary	Total	Monetary	Non-Monetary	Total
	\$ (13,299,422)	\$ 13,567,737	\$ 268,315	\$ (664,971)	\$ 678,387	\$ 13,416
% of Net Assets Attributable to Holders of Class I, Class F, Class A and ETF Units	(28)%	28%	1%	(1)%	1%	0%

(b) Price Risk

Approximately 75 percent (December 31, 2025 – 81 percent) of the Fund's net assets attributable to holders of Class I, Class F, Class A and ETF Units held at June 30, 2026 were publicly traded equities. If

Mulvihill Premium Yield Fund

Notes to the Condensed Financial Statements

June 30, 2026 (Unaudited)

equity prices on the exchange increased or decreased by 5 percent as at June 30, 2026, the net assets attributable to holders of Class I, Class F, Class A and ETF Units would have increased or decreased by \$2.0 million (December 31, 2025 – \$1.9 million) or 3.8 percent (December 31, 2025 – 4.1 percent) of the net assets attributable to holders of Class I, Class F, Class A and ETF Units with all other factors remaining constant. In practice, actual trading results may differ and the difference could be material.

Concentration Risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographical location, product type, industry sector or counterparty type. The following is a summary of the Fund's concentration risk:

	June 30, 2026	Dec. 31, 2025
Financials	46.2%	29.0%
Information Technology	12.9%	12.9%
Health Care	8.9%	7.1%
Industrials	8.5%	3.8%
Energy	8.0%	9.2%
Communication services	4.8%	7.9%
Utilities	4.0%	–%
Consumer staples	3.5%	6.9%
Materials	3.2%	7.6%
Consumer Discretionary	–%	6.9%
Exchange-Traded Funds	–%	8.7%
	100.0%	100.0%

Fair Value Measurement

The following table illustrates the classification of the Fund's assets and liabilities measured at fair value within the fair value hierarchy as at June 30, 2026 and December 31, 2025.

As at June 30, 2026
